

Underwood Minority Scholarship Awarded

It is with great pride that we award the following candidate the 2020 Underwood Minority Scholarship Award, and we wish her all the best and hope this monetary award helps her accomplish her goals:

Alicia Williams, University of Alabama at Birmingham School of Medicine

A Fort Payne native, Alicia is headed for a career in general pediatrics where she will combine her leadership, clinical skills, knowledge of sports medicine and passion for providing care in rural underserved areas of Alabama. She has had the opportunity to work with teenage youth in Birmingham through Girlz Talk, an organization that teaches professionalism, safety and reproductive education. Alicia has also presented research to Governor Kay Ivey's team and has collaborated with Secretary Jenna Ross and the Department of Early Childhood Education.

**Informational Bulletin Intended to
Improve Health and Housing Outcomes**

for Older Adults and People with a Disability in Rural America

The Bulletin provides state Medicaid agencies, state and local housing agencies, state and local public health agencies, and other health and housing entities with information on existing federal resources available to help improve health and housing outcomes for older adults and those with disabilities in rural America.

The Bulletin discusses a wide variety of federal resources that can be used to help reduce physical environmental barriers in the home, increase safety, minimize the risk of falls, and support a person's ability and desire to remain in their own home.

The banner features a teal background. On the left, the text reads: "MEDICAL ASSOCIATION OF THE STATE OF ALABAMA" in small white letters, followed by "COVID-19" in red, and "EARN FREE CME" in large yellow letters. Below this, it says "FIND MORE INFORMATION ON COURSES HERE" in small white letters. On the right, there is an illustration of a person in a white lab coat sitting at a desk with a computer, looking at a screen. In the background, there are stylized virus particles and a window with a view of a city.
