Coming Soon! Medical Ethics Course - Live on December 21

All physicians, regardless of their specialty, should be diligent in making sure they are abiding by ethical standards in their practice of medicine.

While things like keeping confidentiality and telling the truth are obvious ethical principles, do you know the ethical guidelines pertaining to:

- Respecting a patient's autonomy?
- Setting and adhering to healthy boundaries?
- Making decisions that are truly in the best interest of a patient?

This Medical Ethics course focuses on those issues, that if ignored, may jeopardize your medical license.

This 4-hour course includes:

- Professionalism in Medicine
- Evaluating and Treating Physicians Involved in Sexual Misconduct and Sexual Harassment
- How to Jeopardize Your License: 10 Easy Steps
- Ethical Issues: Case Files from the Board of Medical Examiners

Updated Vaccine Information Toolkit for Providers

COVID-19 VACCINE

PROVIDER INFORMATION

Throughout the COVID-19 pandemic, we have remained committed to providing you with the most relevant and timely information. **The Pfizer vaccine is now available for health care workers and we have updated the appointment information in our toolkit.** Please visit page 5 in the toolkit for more details.

The Medical Association has developed this COVID-19 Vaccine Provider Toolkit to help you answer essential questions that you might have about the COVID-19 vaccines.

The information in this toolkit includes: comparisons of the Pfizer and Moderna vaccines, Pfizer vaccine prioritization for office-based physicians, vaccine allocation, storage, billing/coding, provider enrollment instructions, frequently asked questions, sample social media posts, and more.

We will have new details on the Moderna vaccine sites and additional Pfizer sites on Monday. As these details are announced, the toolkit will be updated on our website. Click below to download it now!

Alabama shorted 20,000 vaccines in next week's shipment, say feds cut allotment

Alabama's health officials learned Thursday that about 20,000 Pfizer vaccines slated for arrival for next week's shipment are not coming.

"Clearly there's not enough product to go around. There's not as much as they were anticipating, and no one has given us an adequate explanation," said Alabama Health Officer Scott Harris.
